The Fourth their Setting, as is plain by their very Titles; and herein you are to Observe that the Letter (a) signifies Afternoon, and the Letter (b) Before-noon, or Morning, and so likewise in the 5th 6th and 7th Columns the same, and also in the 8th and 9th and 10th, which is Plain to the Meanest Capacity, as for

Suppose you desire to know the Rising, Southing, and Setting of the *Pleiades*, or *Seven-Stars*; On *January 21* I find they Rise 10, (b) 16, which shews they Rise at 10 of the Clock, and 16 Minutes past before Noon, as the Letter (b) at Top Denotes, they are South the same Day, at 6 (a) 32, that is at 6 a Clock, and 32 Minutes past in the Afternoon, as the Letter (a) at the Top signifies in the Second Columne, and in the Third Colum, you will find they Set the same 21st of *January*, at 2, (m) 48, which is 2 a Clock, and 48 Minutes past, signified by (m) by which Letter is meant Morning; again on *February 21*, they Rise at 8, and 15, Minutes past before Noon, South at 4, and 30, Minutes past in the Afternoon, and Set at 12, and 46, Minutes past in the Morning; again, *March 21*, they Rise at 6, and 31 Minutes past in the Morning, South at 2, and 47 minutes past in the Afternoon, and Set at 11, and 3 minutes past in the Afternoon, or Night, and so of all the rest of the Months, which is both Plain and Easy to the meanest Capacity, and of great Use to the Honest Country-man, &c.

January hath XXXI Days.

Aphorismes Relating to Nativities. Now a Child is said to be Born when it first Breath in Air at its Mouth, without the Mothers Womb. So th^t ife that have the Luminaries unfortunate in Angles, will be apt to be Self-Murderers; And also those that have Saturn in Opposition to Jupiter, will never enjoy Peace, and those that have the Dragon Tail with Jupiter will never be Rich.

Observations.

WE are now by the Blessing of God, arriv'd to the Year 1714. Which is Usher'd in with an Opposition of *Saturn* and *Jupiter*, which naturally Portends a deal of Mischief and debates in many Places, Especially in those Countries, menact'd by the Signs they Possess, &c. But as the Case now stands, this Opposition of the two Superiors, does not seem so ominous, by Reason at the time thereof *Saturn* is very weak and Retrograde withall; and *Jupiter* in his own Domal Dignities; this may bring some untoward News, and Paper Lies dispers'd, and this may be gather'd from the hopeful Trine of *Saturn* and *Mercury* this Month, but no danger of a new War, so that all Loyal Hearts may rejoyce. The opposition of *Saturn* and *Mars* may cause some Dueling, Bloodshed, &c.

~~February hath XXVIII Days.~~

Those that have Saturn and Mars in the same part of the Zodiack, will be obnoxious in their Lives, to many misfortunes, if they be both in Taurus, and in the fourth House, when the Ascendant by direction comes to their Rays, the Native will have some grievous Fall, or be in Danger by some Rancorous Buttoin, falling on him.

MANY are the ways of the wicked and self-ended Men, can never be satisfied, let what will come, nothing will serve but to be uppermost. This Opposition of the Sun and Saturn will give Affliction to a certain Hero, either by Death or otherwise; and some Turn'd out of Places of Trust, which perhaps may deserve it. Many indecent Speeches used against Authority, by a Sullen Ill-natur'd sort of Men, but for the general, all will seem very well; some fly Villany or Lybal dispers'd about this time, and some may chance to be well rewarded for their pains.

Observations.

NOW things appear in good order, and the Industrious Merchant out of Danger from Privateers, Those that long derided us, are now deciv'd, and the Eyes of the Nation are Open: God Bless the Queen, and let those that trump'd up Resistance, learn to Obey, since Obedience is better than Sacrifice, &c. Good News from Abroad, and I hope all will be well at Home, Peace is the fore-runner of Plenty, and blessed be the Peace-maker. There is a Conjunction of the Sun to Jupiter, Venus and Mercury; this Month which will give Perseverance to some deserving Persons, win Gold and wear it, is a good old saying; but let the wicked and gainsaying Person, meet with his Reward also, he that deserves a Halber, let him have it.

He that has the *Moon* in *Taurus* in the second Separating from the *Square* or *Opposition* of *Jupiter*, and applying to *Line* of the *Sun*, shall obtain much Riches.

Observations.

Things seem now Pretty
 Harmonious, and close
 Consultations about this time,
 when the Sons of Holy Job
 met together *Satan* also came,
 among 'em. Good Counsels
 are sometimes brought to
 Nought, by those that pre-
 tend to keep secreters, Riches
 make 'emle ves wings, but
 shou'd they be only fastned
 with Wax, in flying too near
 the Sun they may chance to
 Melt, and down comes the
 Bird, and who wou'd have
 thought it. The Conjunction
 of the Sun and Mars, as now
 Posited, may Prefer some,
 Martial-Man, Perhaps in Ire-
 land, to see things well Order-
 ed there, and good Discipline
 Kept; 'Tis I hope we shall
 not have much occasion for
 Fighting.

			☉	☿	♂	♀		
1	3	27 10	M 37	△			This Month produces 3 Squares, viz. one of Sa- turn and Venus, one of the Sun and Saturn, and one of * Saturn and Mars; the first is not favourable to Fe- males, but on the contra- ry, Menaces, Trouble and Sickness to many of that Sex. The 2d, threatens some Persons of Note, but this seems rather Foreign than Domestick. The 3d, will incline Men to Mis- chief, Bloodshed and Duel- ing, Backbiting, Lying, and Slandering, promoted by a sly parcel of Villans, who, to promote their own Interest, wou'd en- slave their Brethren, but the Viper has lost his Head, and the Venom is spent. God for ever preserve the best of Queens, and grant that all she puts in Trust, may do her true and faith- ful Service. Let Sedition and Hypocrisy dwindle to Nothing, and let Loyalty for ever abound.

Aries ascending, shews the Native to be handsome, and of a grave Temper, when the Moon is in *Scorpion*, in square of *Saturn* in *Leo*, or in opposition when he is in *Taurus*, the Native has rarely Wife or Children; but if *Saturn* be in *Aquarius*, he is a Woman-hater; if the *Dragon's-Tail* be with *Saturn* in square to the Moon, the Native is Consumptive.

If the Dragon's Tail be in square to the Lord of the Ascendant, he will be sickly and infirm all his Days; and if such Aspect happen from the 6th House, so much the worse; when Jupiter is in the 6th House retrograd, and the Lord of the 2d Peregrine, and no fixed Star to help, such Native will be very Poor and Necessitous.

1	8 A	9 12	30					♂	Now all things seem to go on very mild, and the Aspects of this Month, tend to Harmony, all but that of the square of Jupiter and Mars, and that may degrade some Gownman; Jupiter in the House of Mars, and soon becomes retrograde; a Word to the Wife is enough; he that will fish in troubled Waters, can't expect much for his Pains; Obedience is better than Sacrifice, &c. Saturn meets with a conjunction of Venus in Virgo, which shews for an old Dotard to have a mind to a Maidenhead, which, if he gains, he may as a Reward for his Labour, dye a Cuckhold, and as some say, be made Happy, much good may it do him with his Fancy. Some good News from Abroad, and an old grudge ended, which has been of long standing between Two of Note.

August hath XXXI. Days.

He that has *Mars* in his *Ascendant*, shall be exposed to too many Dangers, and commonly at last reserves a Scar in his Face. *Mercury* mixing his Beams with *Mars*, is a great Argument of a violent Death: A Native is very unhappy if *Jupiter* and the *Moon* be weak or afflicted in any Nativity.

The Moon full of Light in Conjunction with Mars, makes the Native counted a Fool; but if she be void of Light, and with Saturn, he is a Fool indeed. Venus in the Heart of the Sun, gives great Honours; the same if a Planet be with Cor-Leonis beholding the Moon in a Nativity.

1	6A 58	2	A 50		☐ 6	The beginning of this Month is like to discover some Knavery: Let him that deserves a Halter have it; a certain Lady Weeps; but the Month for the most part, seems to be of a healing Nature, and some Differences seem also to be reconcil'd; the Sun is Eclips'd this Month invisible to us, but yet will have its Signification where it is seen; and some King or Prince averseto War, will receive some Mischief, especially one signify'd by the Sign Scorpio. The Merchant near this time will rejoice, Ships come home laden without Fear; the labouring Bee now is not afraid of the Horner; let him that stole, steal no more, but rather labour with his Hands to get his own Living; honesty is always the best Policy, and a Morfel with Content is better than great Treasure with Strife.

November hath XXX. Days.

The Moon in the 7th House, renders the Native subject to the Falling-sickness; and sometimes when she is in the Ascendant; but generally if she be afflicted there, she makes the Native a Fool. Bastards generally have the Ascendant in Aspect with the Moon, and not the Significator of the Father: and for the most part attended with Misfortunes.

COLE Y's *Astrological Observations*, 1714.

Of the Eclipses this Year, 1714.

Which are in Number Four, and are as follows,

TH E First is of the *Moon*, on *May* the 18th, it is a total Eclipse where it will be seen, but to us Invisible; it begins little past 5 in the Morning, and ends near 9 digits Eclipsed, will be about 19 where it is Visible.

The Second will be of the *Sun*, on the First Day of *June*, but Invisible also, by reason the *Moon* is depressed by her Parallax and South Latitude, below the Limb of the Sun.

The Third is a small Eclipse of the *Sun*, on the Second Day of *October*, near 8 in the Morning, but not visible, by reason of the *Moons* great South Latitude.

The Fourth is of the *Moon*, on *November* the 10th, near One in the Afternoon, and so Invisible to us.

The Last is of the *Sun*, *November* 26, near 1 in the Morning, and so Invisible also, as is all the rest of this Year.

Now besides these Eclipses, there happens this Year, an opposition of *Saturn* and *Jupiter*, on the First Day of *January*, and an opposition of *Saturn* and *Mars*, the 27th of the same Month, of which undoubtedly some Countries, as well as Persons, will feel the Effects, tho' blessed be God, we now enjoy Peace and Plenty, under the Protection of the best of Monarchs; may She Live Long, and see many happy Days, to the great Joy of all her Loyal and Loving Subjects, and to be a Dread to all Her Enemies, who seek or wish Her Hurt: And at Length, in a Good Old Age, enjoy a Crown of Immortal Glory, that She may Reign with Saints and Angels in Heaven, a Queen for evermore, *Amen*.

And this brings me in the next place to consider, the Four Seasons of the Year, from the *Suns* entrance into the Four Cardinal Points, and First of

The Winter Quarter.

This Quarter takes it beginning at such time, as the *Sun* cometh to his Lowest South Declination, and enters the First Point of the Sign *Capricorn*, and happen'd on the Tenth Day of *December* last, at 30 Minuits past Nine at Night, I chose to treat of this Quarter First, by reason most part of it happens in

COLEY's *Astrological Observations*, 1716

in this Year, now at the time of this Ingress about 4 degrees of *Virgo* Ascends, and 25 degrees of *Taurus* Culminats, on the Cusp of the Tenth House, *Saturn* is posited in the Ascendant in opposition to *Jupiter* in the 7th, this stirs up the Minds of Evil Persons, cause Heats and Animosities, and a discontented Crew swell with Malice, seeing all their devices frustrate and so let it happen to 'em, as often as they seek to disturb the State, or undermine the Church, Cant and Wheedle never pass Currant, tho' it may go a great way, with the Ignorant and unthinking People.

*Those that affront the QUEEN, or Peace disturb,
Let a good Halter serve 'em for a Curb.*

Indeed this opposition of the superiors is not so Ominous as some think, who hoped it would set all in a Flame, and frustrate the good designs on Foot, but those that mind the position will see it means otherwise, for Old sullen *Saturn* is weak, and *Jupiter* in his own House and dignities. Many Libels, and false reports spread abroad this Quarter, notwithstanding the Care taken to prevent such doings, the Devil has still his Agents, and will as well reward 'em for their diligent Service in the End; the latter End of this Quarter is like to bring good News to the Industrious Merchant, may he ever Thrive, it is Trading and not Fighting, that make a Nation Fat, War only sets up a Few, and destroys Millions; and those few care not who Sinks, so they Swim, they Fawn upon you, and flatter you with good Words, when their only design is to devour you; as the Lion intended to serve the Bull, of which take the following Account.

A Large rapacious Lion, meeting with a curious Fat Bull, and having a mind to make a Feast of his Carcass, up he boldly steps to him, and with very fine Words and excellent Compliments, invites the Bull to Supper, accosting him after this manner, my good Friend and Neighbour says the Lion, I have just now Kill'd a delicate well Flesh'd Sheep, and I can't be pleas'd, unless you take part on't with me, the Bull at present not mistrusting his Policy, thank'd him for his kind Invitation, and away they went together, but they had no sooner enter'd the Lions Den, and the Bull had taken a turn about, but he beheld Large Pots, Chaldrons and Long Spits (and whole Wagon Loads of Bread ready set) with a huge Fire, big enough to Roast him whole; the poor spirited Bull was struck with

COLEY's *Astrological Observations*, 1714.

With a Pannick Fear, and immediately scoures off, the Lion seeing him scamper away at such a Rate, calls after him, why so hasty Good Master Bull, who replied 'tis time to be jogging, for I perceive by your Preparation, you have more mind to Beef and Bread, than a Mutton Supper.

The Moral.

A watchful Eye and prudent Care, prevents many Misfortunes, when a pretended Friend has a mind to betray or destroy, as he sees it most for his Interest, it is generally shew'd on and accomplish'd under a fair and specious Pretence of kindness and Affection, but have a care how you trust those Persons, that live upon the expence of an others Happiness.

*Let not fair words prevent a prudent Care,
Fine Compliments too often prove a Snare ;
Ill Men in Power compleat their bad design,
Beef goes to'th Pot, when Hungry Lions Dine.*

Which is as much as I shall say of this Quarter, only mention what Diseases are most like to predominate, and they are such, as Griping in the Guts, Pain of the Stone more than ordinary, to such Persons Afflicted with that Distemper, Obstructions in the Bowels, and Stoppage of Urine, the Body much bound, and great Weakness, therefore those Medicines that are good to carry off such matter, are most proper for this Season.

*This Quarter Melancholy is and Cold,
Boreas does thunder and is very Bold,
Sometimes so Sharp is felt and keen,
That on the Rivers Glassey Ice is seen,
The Woods and Meads do all look pale and wan.
Like a White Head or Bald pate Aged Man,*

Which brings me into the consideration of the next, which is,

The Spring Quarter.

WHICH takes its beginning at such time, as the Glorious Lamp of Heaven, touchesthe First Point of the Equinoxial

COLEY's *Astrological Observations*, 1714

noxiol Sign *Aries*, or the Earth *Libra*, and is this Year
March the Ninth, near half an hour past 11 at Night, at which
about 27 degrees of *Scorpio* does Ascend the *Horoscope*, and
degrees of *Virgo* is on the mid Heaven, the *Sun*, *Jupiter*, *Venus*,
Mars and *Mercury*, are all crouded under the Earth, *Saturn*
the Ninth, and the *Moon* in the seventh, at the time of the
Ingress; many close Contrivances in Hand, and evil Spirits
are still at Work, all their Pretence is about Religion, but
the Devil said when he shear'd his Hogs, a great Cry and
little Wool; they that talk most of Religion, make the least
use of it, yet notwithstanding all their Malice and Affronts
they have given to Majesty it self, we have a Peace, and
hope a lasting one: God for ever preserve our Glorious
Queen, and Grant She may Live long to enjoy Peace and
Tranquility here, and at length Reign Triumphantly in He-
ven; Peace always brings Plenty, when War brings nothing
but Poverty at the Heels. Some deserving Person or Persons
meet Preferment this Quarter, let the deserving Person be
always rewarded according to his Works, and the under hand
tricking deceiver, Rewarded according to his deserts; the
Month of *April* seems Harmonious, and things for the gener-
part look with a very good Face; some Persons of No-
meets Preferment perhaps in *Ireland*, it seems to menace
of the Son of *Mars*; in the the Month of *May*, Females may
suffer by Sickness and other Afflictions; some Persons of No-
meet with Trouble, but this seems to happen Remote from us.
It is not strange, notwithstanding the Law so strict against
it if in this Quarter we do not hear of Duelling, Backbiting
and many Lying Reports spread abroad, by a scoundrel Party
but their Calves of *Bethel* and *Dan*, are discovered by their
Tails.

*Therefore forbear let's bear no more the Story,
Of High and Low Church or of Wig or Tye,
The Fashion first distinction did invent,
Who hate a King, a Queen, or Parliament,
Tis we have heard, have felt and seen of late,
By such as once o'rethrew both Church and State.*

And this brings to mind the Story of an envious Dog, who
who could or would find no other place to Lodge in, but in a
Manger full of Hay, where he lies continually roaring at the
Laborious Ox, who could not feed for this disturbing Cause.

Play

COLEY's *Astrological Observations*, 1714.

argue on you for a spiteful Cur says the Ox, you will Eat no
by your self, and yet will hinder those who can; by which
you may see, that some are full of Spleen and Malice, that
they will not suffer another to Aim at, or enjoy any thing
that lyes out of their Reach.

*Thus 'tis in Kingdoms you can hope no good,
When Dogs fright useful Oxen from their Food.*

And thus I End this Quarter, with giving a short Account
of what Diseases are like to predominate in the same.

Which seems generally to proceed from Cold taken from
the Feet, with Swelling and Lameness in those parts, also some
subject to the Flux, others with the Body much Afflicted with
Wind, and cold Raw undigested Humours.

And this leads me to the next, which is,

The Summer Quarter.

WHICH commenceth at such time, as bright *Phœbus*
Mounts the First Scruple of the Cælestial Crab or Sign
Cancer, which happens this Year on the 10th Day of June,
near a Quarter past Eleven at Night, at which time there will
be 23 degrees of *Pisces* Ascend, and 18 degrees of *Sagittarius*
culminate, the Planets are dispersed in divers parts of the
Heavens, as *Jupiter* in the Ascendant, *Saturn* in the Seventh,
the Sun and *Mercury* in the Fourth, *Mars* in the Third, *Venus*
in the Fifth, and the Moon in the Eighth; and thus stands the
Heaven at the time of this Ingress; *Saturn* is in Opposition to
the Cusp of the Ascendant, and it is no wonder if a Jesuitical
as bad a Fanatical Tribe, be not still combining to under-
mine the best Constituted Church in the World, but *Jupiter*
is Located in his own Triplicity in the Ascendant, which will
put a stop to their growing Pride; *Jupiter* is Lord of the Tenth,
and he in Trine to the Cusp thereof, this may give 'em to
understand, tho' they depend to carry their Ends in a New
Election, they will miss their Aim; the Famous Oculist has
Open'd the Eyes of the Nation, and may those for ever pro-
per that wish well to Zion, and help to repair the Walls of
Jerusalem; good News from abroad this Quarter, yet some
scandalous reports are spread to amuse the Credulous, but in
the End, they may be rewarded as they deserve; now the
Industrious Merchant begins to feel himself Thrive, and see

COLEY's *Astrological Observations*, 1714.
the difference between a firm Peace, and a Lavish
War.

*Such bold resisting Blades wou'd bear the Sway,
While Loyal Hearts passively do obey,
Remembring that Obedience, is better than Sacrifice.*

Which is all I shall say as touching this Quarter, only give
Account of the Diseases that are like to Reign, which are such
as the Small-Pox, and Distempers in the secret Parts, Dropsies
in the Heart Afflicted with Sounding Fits, all which is aggravated
by the *Moon*, applying to the opposition of *Mars*. Now
come to the next, which is,

The Autumnal Quarter.

WHICH takes its beginning this Year at such time,
the *Sun* enters the Sign *Libra*, or the *Earth Aries*, choose
you which you please, it happens on the Eleventh Day of
September, at 23 Hours 55 Minuits P. M. or more plain, on
the 12th Day 5 Minuits before Noon, at which time, the
beginning of *Sagitarious* does Ascend, and the latter end of
Virgo Culminates, *Saturn*, *Mars* and *Mercury* are all in the Ninth
House, a fine parcel of Religious Sparks, I shall say but little
of 'em by reason as the case stands. I cannot Quarrel with
Saturn for inclining some to encourage bare fac'd Popery, but
in the way, I must give the other canting sparks in a Mask
a Box on the Ear as I go by, for they are both alike Enemies
to the best constituted Church in the World, which pray God
for ever preserve, and grant the Glorious and Pious Queen
ANNE, to Live long, to be a Nursing Mother both to
Church and State; some Knavery in this Quarter is like to be
discovered, let Villany be as well rewarded, as good Deeds,
but in a different way, now the Merchants will have some
happy Returns, and feel the Effects of a happy Peace, 'tis the
Industrious labouring Bee, that brings home the Honey, while
the Idle Drones makes a noise and bluster, but live upon the
Labour of others.

There is a conjunction of *Saturn* and *Mars* this Quarter
which may cause some private contrivances, and set uneasy
Spirits on work, it may menace Breach of Leagues, especially
in those Countries menaced by the Signs those Planets possess.
So now I shall conclude this Quarter and the whole Year, with
the

COLE Y's *Astrological Observations*, 1714.
